Memorandum

National Nuclear Security Administration
Kansas City Site Office
Kansas City, Missouri 64141-0202

DATE: JAN 30 2004

REPLY TO: KCSO:OPPM:DMC

SUBJECT: Annual National Environmental Policy Act (NEPA) Planning Summaries

TO: Beverly A. Cook, Assistant Secretary, Environment, Safety and Health, EH-1

The following information is provided in response to your memorandum of December 19, 2003. It applies to all field locations in Missouri and New Mexico that are managed by the Kansas City Site Office.

Status of Ongoing NEPA Compliance Activities

None.

Environmental Assessments Expected to be Prepared in 12 Months

No Environmental Assessments are planned in the next 12 months.

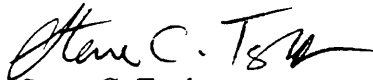

Environmental Impact Statements to be prepared in 24 Months

No Environmental Impact Statements are planned in the next 24 months.

Need for Site-wide Environmental Impact Statement

Due to the ongoing currency of the Programmatic Environmental Impact Statement for Stockpile Stewardship and Management (DOE/EIS-0236, Record of Decision 12/19/96) for the operations of the Kansas City Plant, and the successful use of available Categorical Exclusions, a new site-wide Environmental Impact Statement would not facilitate future NEPA compliance efforts.

Please contact David M. Caughey, NEPA Compliance Officer, at (816) 997-3449 if you have any questions concerning this report or Kansas City Site Office NEPA activities.

Steve C. Taylor
Acting Manager
Kansas City Site Office
